Northern Illinois University

2008 - 2011

B.S Information Technology

Arkansas Tech University

2004-2008

EXPERIENCE

Senior Frontend Engineer, Design Systems

PatientIQ

Jan 2020 - Present

Work on the main patientIQ application, while leading the transition to a more cross functional design and ideation process. Work closely with the product team to design and implement a cross application design system and its accompanying component libraries. I used React, Storybook, Figma, Styled System, Typescript, and Rollup to create packages the teams could consume in main apps.

Frontend Developer + UX Designer

Twisted Road

July 2018 - Dec 2020

Member of the initial team of an early-stage startup as the Frontend Developer, UI/UX Designer, product manager, occasional marketer and CEO-wrangler. Work in React, Figma, Heroku, Strapi, HTML, CSS, Mixpanel, Metabase, Stripe, and Postman to design and execute consumer React app, shipping daily updates. Implement and manage agile processes in conjunction with a data driven feature roadmap to help our scrappy company scale. Responsible for complete design system and style guides.

Web App Development and Digital Marketing

Freelance

May 2016 - July 2018

Worked to help companies optimize conversions through site/app rebuilds, landing page strategy, and SEO. Accessibility was a strong focus.

Frontend Developer + Photoshop and After Effects Instructor

Northern Illinois University

Apr 2012 - May 2016

Fullstack Developer

Forty Two Eighty Nine Agency

Feb 2011 - Apr 2012
